Business Segments

The corporation's two main business segments are structured to meet client needs – removing complexity but not the quality and sophistication of investment solutions.

Investor Services provides brokerage to millions of individuals who invest on their own or through a workplace-sponsored retirement or equity plan, as well as banking through Schwab Bank.

Advisor Services provides trading, custody, technology, practice management and other support services to nearly 7,000 independent investment advisors.

Both segments offer financial products and services developed by Charles Schwab Investment Management Inc., the investment advisor for Schwab's proprietary funds, as well as an extensive selection of third-party products. Both segments also offer advice solutions, including separately managed accounts, customized personal advice for tailored portfolios, specialized planning and full-time portfolio management.

Both segments also participate in the work of Schwab Community Services and Charles Schwab Foundation, through which we give time, talents and funding to help strengthen America's financial skill set.
