

CREATE Insurance

Grades 9-12

Teacher: Ms. Rose

Date: 08/19/2019

Overview & Purpose

Provide the lesson title and a short (3-4 line) purpose statement expressing your vision for this lesson.

The lesson exposes students to insurance and why it is necessary to manage risks in life and plan for future goals. Students will learn the key insurance concepts in an interactive way, watch mayhem the videos to understand the need for insurance, post comments on the Padlet discussion board about their learning experiences, analyze 3 scenarios about insurance and final complete an assessment about insurance.

Objectives

List your 3-5 objectives. Specify the new skills that the students will gain as a result of the lesson.

What will students have learned or experienced by the end of the lesson?

1. Students will be able to describe the types of insurance
2. Students will be able to describe the benefits of insurance

-
3. Students will be able to analyze insurance scenarios and develop an understanding of how to protect themselves and their families against unexpected loss.

Materials Needed

What items do you need to complete this lesson? Please include items you requested in your project as well as anything else you used to bring this lesson to life.

1. Adobe Captivate to ensure that the lesson is truly interactive
2. Tech Smith or Camtasia software for video editing

Verification

What 3+ steps did you go through to make sure that your students understood the concepts you taught in your lesson?

Formative assessments:

1. The quizlet glossary review
2. Review the discussion board that would be ongoing throughout the lesson would ensure that students master the content during the lesson.
3. Students will also be assessed as they complete the scenario based activity through a series of questions.

Activity

What activity did you take students through to reinforce the concepts you taught during your lesson?

1. As the students learn about the different types of insurance. The mayhem video review activity will reinforce their understanding of the types of insurance and the content vocabulary related to each concept.
2. Students will view the following video clips
<https://www.youtube.com/watch?v=5fZ2sS-lqXo> (car insurance)
https://www.youtube.com/watch?v=2s2fvO_30BU (homeowners insurance)
<https://www.youtube.com/watch?v=dpUIxQUbp0o> (life insurance).

Students will answer the following questions for each video and post their responses to the discussion board:

3. Identify the type of insurance represented or needed
4. Identify at least 2 insurance terms you identified in the video
5. How does this relate to managing risks?
6. Students will also apply their knowledge of risk management as they analyze a case study and provide solutions based on insurance needs. Upon completion of the lesson students will also take a summative assessment to determine their understanding of insurance and risk management.
