Winter Business Update

January 17, 2024
This presentation contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements include statements that refer to expectations, projections or other characterizations of future events or circumstances and are identified by words such as “believe,” “expect,” “will,” “may,” “should,” “could,” “continue,” “growth,” “remain,” “sustain,” “enhance,” “estimate,” “potential,” “anticipate,” “lead,” “advance,” “ongoing,” “illustrative,” “opportunity,” “expand,” “drive,” “deliver,” “bolster,” “position,” “trajectory,” “target,” “assumption,” “scenario,” “enable,” “capture,” “accelerate,” “temporary,” “build,” “seek,” “in-line,” “outlook,” and other similar expressions.

These forward-looking statements relate to: the company's strategy and approach; positioning; success with clients; growth in the client base, client accounts, and assets; the integration of Ameritrade, including current expectations regarding the timing of remaining client transitions, deal-related attrition, and the amount and timing of expense and revenue synergies; growth in revenues, earnings, and profits; positioning; organic growth; stockholder value; business and financial models; diversified revenue sources; market share; industry trends; competitive advantages; growth recipe; business momentum; opportunities; investments in our platform and client experience; key strategic initiatives to drive scale and efficiency, win-win monetization, client segmentation and ease; enhancing and expanding offers and solutions for clients and RIAs; Workplace participant experience; financial formula; run-rate expense savings and the costs to achieve them; client cash realignment, including activity, factors and trends; net interest margin; utilization of, impact from using, and repayment of, supplemental funding; capital; mathematical illustrations and related assumptions, including macro, business and client behavioral factors; estimated impact from sensitivities; financial outlooks, including revenue, expenses and profit margin; balance sheet management; capital formation and Adjusted Tier 1 Leverage Ratio; ROCA and EOCA; investment portfolio; reinvestment yields; long term growth and earnings potential; and capital return.

These forward-looking statements, which reflect management’s beliefs, expectations, and objectives as of today, are estimates based on the best judgment of the company’s senior management. Achievement of the expressed beliefs, expectations, and objectives is subject to risks and uncertainties that could cause actual results to differ materially from those beliefs, expectations, or objectives. Important factors that may cause such differences are discussed in the company’s filings with the Securities and Exchange Commission, including the Annual Report on Form 10-K and Quarterly Reports on Form 10-Q. Other important factors include general market conditions, including the level of interest rates and equity valuations; the company’s ability to attract and retain clients and RIAs and grow those relationships and associated client assets; the company’s ability to develop and launch new and enhanced products, services, and capabilities, as well as enhance its infrastructure, in a timely and successful manner; client use of the company’s advisory and lending solutions and other products and services; the company’s ability to support client activity levels and attract and retain talent; the risk that Ameritrade client transitions may not be completed when expected or not result in a positive client experience, asset attrition from clients originating at Ameritrade may be higher than expected, expense and revenue synergies and other benefits from the Ameritrade acquisition may not be fully realized or may take longer to realize than expected, and that integration expense may be higher than expected; client cash allocation decisions; competitive pressures on pricing; client sensitivity to rates; the level of client assets, including cash balances; the company’s ability to monetize client assets; the level and mix of client trading activity; market volatility; capital and liquidity needs and management; the company’s ability to manage expenses; integration-related and other technology projects; compensation; balance sheet positioning relative to changes in interest rates; loan growth; pace of paying down supplemental funding; interest earning asset mix and growth; securities lending; daily average trades; margin balances; capital expenditures; regulatory guidance; the effect of adverse developments in litigation or regulatory matters and the extent of any charges associated with such matters; and any adverse impact from new or changed legislation, regulation or regulatory expectations.

The information in this presentation speaks only as of January 17, 2024 (or such earlier date as may be specified herein). The company makes no commitment to update any of this information.
Strategic Update

Walt Bettinger
Co-Chairman of the Board and Chief Executive Officer

Rick Wurster
President
Schwab’s “Through Clients’ Eyes” strategy continues to guide the firm into its next chapter.

- As improving macroeconomic data helped markets shake-off the impact of the regional banking crisis to finish the year near record levels, investors remained engaged and turned to Schwab for help navigating this rapidly evolving environment.

- We successfully converted ~90% of Ameritrade assets and accounts as our “no trade-offs” approach continued to resonate with new and existing clients.

- Informed by key trends expected to keep shaping our industry, we delivered meaningful progress across our strategic initiatives in 2023 – while also identifying incremental investments intended to bolster Schwab’s long-term organic growth and competitive positioning.
Markets ended 2023 firmly in positive territory, even as the regional banking crisis and geopolitical turmoil created a bumpy road for investors.

Financial Review & 2024 Outlook

Peter Crawford
Managing Director, Chief Financial Officer
We anticipate 2024 to serve as a transition year financially, positioning us for differentiated growth over time.

- **Diversified model** enables us to produce solid results and **strong profitability** through a range of environments

- While the environment is uncertain heading into 2024, **temporary headwinds continue to subside**:
  - Client cash **realignment activity has further decelerated** from peak levels
  - Anticipate **meaningful NIM expansion** over the next two years as we continue to pay down supplemental funding
  - Our **capital position will continue to strengthen and build** each quarter

- Over the next year and beyond, **we expect our time-tested financial formula to reassert itself**

---

**Financial Priorities**

- Continued business growth through our client-first strategy
- Long-term revenue growth through multiple sources
- Expense discipline enabling sustainable performance

Note: NIM = Net interest margin.
Our expanding client base, diversified revenue sources, and ongoing expense discipline produced solid financial results.

**Net Revenue**

- 17% Trading
- 25% Asset Management & Administrative Fees
- 50% Net Interest Revenue
- 4% Bank Deposit Account Revenue
- 4% Other

**Expenses**

- $12.5B GAAP
- $11.0B Adjusted

- Captured ~80% of pre-committed Ameritrade run-rate cost synergies by year-end
- GAAP expenses included $495 million in one-time restructuring charges related to incremental expense savings

**Pre-tax Profit Margin**

- 33.9% GAAP
- 41.5% Adjusted

11 Consecutive years of GAAP pre-tax margins exceeding 30%

5 Consecutive years of adjusted pre-tax margins exceeding 40%

Note: B = Billion. GAAP = Generally accepted accounting principles. 1. Further detail on non-GAAP financial measures and a reconciliation of such measures to reported results are included on slides 49-52 of this presentation.
During 2023 we prioritized balance sheet flexibility.

- **Total assets contracted by $59B** versus the prior year, due to client cash allocation decisions and the resulting smaller investment portfolio.

- Client cash held on the balance sheet **declined by $135B** from the end of 2022.

- **Supplemental funding** levels have declined 18% from the May 2023 peak of ~$97B to end the year at ~$80B.

- **Stockholders’ equity increased ~12%** versus 4Q22, driven by strong organic capital formation and ongoing accretion of unrealized marks.

- Issued **$6.2B of long-term debt** during the year ahead of upcoming maturities and to provide additional liquidity during the larger Ameritrade conversion weekends.

- Year-end **consolidated Tier 1 Leverage Ratio** was 8.5%, which is well above current minimums.

Cash realignment activity slowed substantially during 2H23 and we observed a seasonal build in transactional cash in December.

Transactional cash levels will be influenced by the firm’s growth, client asset allocations, and typical seasonal trends.

Note: Q = Quarter. H = Half. B = Billion. PMMF = Purchased money market fund. 1. Transactional Sweep Cash includes bank sweep deposits and broker-dealer cash balances, other client cash held on the balance sheet (bank checking and savings deposits as well as broker-dealer non-interest-bearing credits) and Bank Deposit Account balances; excludes proprietary and third-party CDs. 2. Represents net PMMF flows that originate from client cash in Schwab Bank Sweep and/or Schwab One®. Excludes Ameritrade accounts that have been converted to the Schwab platform.
As we begin 2024, there remains much uncertainty.
The path of transactional sweep cash will be influenced by several factors.

- Existing Client Behavior
- New Client Growth
- Seasonality

Existing Client Behavior
- Volume of new account formation and average account funding size

New Client Growth
- Investor sentiment, driven by external forces (macroeconomic & market)

Seasonality
- Transactional sweep cash allocation level

This remains the biggest unknown in terms of the 2024 cash story
The path of transactional sweep cash will be influenced by several factors.

**Existing Client Behavior**

- Redeployment of year-end cash build back into the market

**New Client Growth**

- Federal and state tax disbursements by clients

**Seasonality**

- RIA advisory fee payments

- Cash build from portfolio rebalancing activities and distributions

While we expect to hold expenses roughly flat in 2024, we are still investing to support long-term growth and enhanced efficiency.

A balanced approach to expense management over time has significantly lowered our cost to serve.

We will continue to seek to further bend the cost curve while supporting long-term growth of the business.

We continue to see a path to NIM approaching 3.00% before the end of 2025...

Illustrative NIM vs. Fed Dot Plot

- December 2023 Fed Dot Plot
- Cash realignment continues to decelerate in 2024 and we pay down supplemental borrowing
- Following the pay down, longer-term NIM accretion will be further supported by reinvestment of fixed-rate book (currently yielding ~1.60 – 1.70%)

...while our resilient business model helps power strong organic capital formation.

We continue to see a path to consolidated Adjusted Tier 1 Leverage reaching above 6.5% before the end of 2024.

Note: T1LR = Tier 1 Leverage Ratio. E = Estimated. GAAP = Generally accepted accounting principles. 1. Further detail on non-GAAP financial measures and a reconciliation of such measures to reported results are included on slides 49–52 of this presentation.
As we transition through 2024, advancing key initiatives and growth in transactional sweep cash will help build our momentum,...

- Completion of the Ameritrade integration
- Sustained investment in our platform and client experience
- Resumption of transactional sweep cash growth

Return of sequential revenue growth fueling momentum into 2025 and beyond
...keeping us on a path back towards our long-term growth and earnings potential.

Non-GAAP Introduction

In addition to disclosing financial results in accordance with generally accepted accounting principles in the U.S. (GAAP), this presentation contains references to the non-GAAP financial measures described below. We believe these non-GAAP financial measures provide useful supplemental information about the financial performance of the Company, and facilitate meaningful comparison of Schwab’s results in the current period to both historic and future results. These non-GAAP measures should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP, and may not be comparable to non-GAAP financial measures presented by other companies.

Schwab’s use of non-GAAP measures is reflective of certain adjustments made to GAAP financial measures as described below. Beginning in the third quarter of 2023, these adjustments also include restructuring costs, which the Company began incurring in connection with its previously announced plans to streamline its operations to prepare for post-integration of TD Ameritrade. See Part I – Item 1 – Note 10 of our Quarterly Report on Form 10-Q for the quarter ended September 30, 2023 for additional information.

<table>
<thead>
<tr>
<th>Non-GAAP Adjustment or Measure</th>
<th>Definition</th>
<th>Usefulness to Investors and Uses by Management</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acquisition and integration-related costs, amortization of acquired intangible assets, and restructuring costs</td>
<td>Schwab adjusts certain GAAP financial measures to exclude the impact of acquisition and integration-related costs incurred as a result of the Company’s acquisitions, amortization of acquired intangible assets, restructuring costs, and, where applicable, the income tax effect of these expenses.</td>
<td>We exclude acquisition and integration-related costs, amortization of acquired intangible assets, and restructuring costs for the purpose of calculating certain non-GAAP measures because we believe doing so provides additional transparency of Schwab’s ongoing operations, and is useful in both evaluating the operating performance of the business and facilitating comparison of results with prior and future periods. Costs related to acquisition and integration or restructuring fluctuate based on the timing of acquisitions, integration and restructuring activities, thereby limiting comparability of results among periods, and are not representative of the costs of running the Company’s ongoing business. Amortization of acquired intangible assets is excluded because management does not believe it is indicative of the Company’s underlying operating performance.</td>
</tr>
<tr>
<td>Return on tangible common equity</td>
<td>Return on tangible common equity represents annualized adjusted net income available to common stockholders as a percentage of average tangible common equity. Tangible common equity represents common equity less goodwill, acquired intangible assets – net, and related deferred tax liabilities.</td>
<td>Acquisitions typically result in the recognition of significant amounts of goodwill and acquired intangible assets. We believe return on tangible common equity may be useful to investors as a supplemental measure to facilitate assessing capital efficiency and returns relative to the composition of Schwab’s balance sheet.</td>
</tr>
<tr>
<td>Adjusted Tier 1 Leverage Ratio</td>
<td>Adjusted Tier 1 Leverage Ratio represents the Tier 1 Leverage Ratio as prescribed by bank regulatory guidance for the consolidated company and for Charles Schwab Bank, SSB, adjusted to reflect the inclusion of accumulated other comprehensive income (AOCI) in the ratio.</td>
<td>Inclusion of the impacts of AOCI in the Company’s Tier 1 Leverage Ratio provides additional information regarding the Company’s current capital position. We believe Adjusted Tier 1 Leverage Ratio may be useful to investors as a supplemental measure of the Company’s capital levels.</td>
</tr>
</tbody>
</table>

The Company also uses adjusted diluted EPS and return on tangible common equity as components of performance criteria for employee bonus and certain executive management incentive compensation arrangements. The Compensation Committee of CSC’s Board of Directors maintains discretion in evaluating performance against these criteria.
